

Physical Therapist

www.physioedgept.com

Looking for a PT position where you can actually practice the way you believe physical therapy should be practiced?

PhysioEdge Physical Therapy & Sports Performance is a growing, locally owned practice in Peyton, CO, looking for a **Full-Time Physical Therapist** to join our team.

We're intentionally building something different from the traditional high-volume outpatient clinic. Our goal is simple: **give patients the time and individualized care they need to get better and return to an active lifestyle.**

Why PhysioEdge?

We know you have plenty of options when choosing where to practice. We're not trying to be the biggest clinic—we're trying to build the **right kind of clinic.**

PhysioEdge is primarily a cash-based practice, with the exception of TRICARE and VA patients. This allows us to continue serving our local military and veteran community while giving our clinicians greater flexibility to focus on patient care rather than allowing insurance reimbursement to dictate the care a patient receives. Instead, we focus on quality over quantity, clinical autonomy, and individualized, performance-oriented care.

As a small and growing practice, you'll have the opportunity to:

- Build meaningful relationships with patients and the community
- Work with athletic, active, military, and veteran populations
- Have clinical autonomy and flexibility
- Help shape and grow the practice
- Earn bonuses for contributing to clinic growth

- Increase your compensation as the organization grows
- Work directly with clinic leadership and receive mentorship

We're proud of the reputation we've built in our community, **including 5-star Google reviews**, and we're looking for someone who wants to help us continue that growth.

Schedule & Compensation

- Full-Time, Monday–Friday
- Flexible scheduling
- \$65,000 annual base salary + bonus opportunities
- Performance and growth-based compensation structure
- Opportunity for additional compensation as PhysioEdge grows

Responsibilities

- Provide high-quality outpatient PT to TRICARE, VA, athletic, sports performance, and active populations
- Perform evaluations and develop individualized treatment plans
- Provide evidence-based, performance-oriented care
- Maintain accurate EMR documentation
- Manage your schedule and patient care
- Communicate effectively with patients, referral sources, and leadership
- Contribute to patient retention, community engagement, and clinic growth

Qualifications

- Active, unrestricted Colorado PT license
- Doctor of Physical Therapy (DPT) degree from an accredited program
- Strong clinical reasoning and communication skills
- Self-motivated and able to work independently
- Interest in orthopedics, sports rehabilitation, or performance

New graduates are encouraged to apply! We're more interested in your clinical foundation, potential, and desire to grow than years of experience.

Experience with outpatient orthopedics, sports, military/veteran populations, strength & conditioning, or performance is a plus.

Who We're Looking For

We're looking for someone who is driven, patient-focused, independent, and excited about building something. If you want to be part of a growing practice where your ideas matter and your contributions can directly impact the future of the organization, we'd love to hear from you.
