

Fun work and learning opportunity for a PT student!

We're looking for a workout buddy and teaching companion for our daughter. She's a bright, funny, spunky 7th grader with cerebral palsy (GMFCS II). She's a hard-working kid who benefits from a range of PT and OT both at CHCO and school. Looking for someone who can help her be productive this summer including doing things like: strengthening, stretching, increasing endurance with walking her dog (current loop is ~1 mile, want to get faster and farther), swimming, yoga, improving training with her service dog. May include driving her to hippotherapy. Mom is a neurologist at CHCO; we are happy to teach you lots from our 13 years of experience!!

Role can be flexible depending on your interests and availability. Hoping for Mon – Fri, 9am to 5pm-ish through the summer, but happy to share / coordinate this role over several providers to make calendars work. Would love to continue through the school year and can be flexible with timing! Location is in Southeast Aurora, close to Grandview High School.

Interested? Call Danielle Barber at 267-253-8630. Thanks!!
