## **Outpatient Physical Therapist**

### **JOB TYPE: Full-Time / Part-Time (depending on availability)**

#### **About Us**

**Purpose Physical Therapy is a progressive outpatient rehabilitation practice serving our community through a hybrid model of care. We provide evidence-based therapy in-clinic and through community/home-based services. Our diverse programs include outpatient orthopedics, neurology, women's health, balance and fall prevention, home safety assessments, wheelchair evaluations, wound/ lymphedema care, and wellness programs. We pride ourselves on delivering personalized, high-quality care while fostering professional growth in an engaging, collaborative environment.**

#### **POSITION SUMMARY:**

**This role is responsible for providing medically prescribed, goal-oriented physical therapy in a patient's home or select location based on treatment/patient needs. The role includes providing therapeutic treatments and participating in the development of patient physical therapy plans of care.**

#### **PRINCIPAL ACCOUNTABILITIES:**

- Perform initial and ongoing physical therapy evaluations and re-evaluations according to APTA standards of practice as well as state standards.**
- Develop a plan of care/treatment plan for each patient based on the initial evaluation and objective findings, including short and long-term goals, keeping the patient and caregiver as the focus of care.**
- Implement treatment plan on an established schedule and adjust this schedule and plan according to patient progress.**
- Document patient progress according to approved medical documentation and facility documentation procedures.**
