ADVOCATE FOR HEALTH
As a therapist at Kaiser Permanente, you’ll help your patients achieve their goals – while realizing your own. Working in a team environment with clinical experts and physicians, you’ll have the freedom, resources, and support you need to develop innovative care plans and improve your patients’ quality of life.

Our therapists enjoy generous autonomy to optimize treatment and minimize the course of care. They are also advocates for the maintenance and promotion of health. Kaiser Permanente therapists believe that therapy should be a satisfying experience for patients and themselves.

We have rewarding career positions in inpatient and outpatient services as well as home health. Full-time, part-time, and on-call jobs are available.
