

We're Moving Forward, Together.

Physical Therapist Orthopedic Residency

Across **six counties in Maryland**, and more coming, **join us** in our mission to **RISE**.

Arundel Medical Group (AAMG) Physical Therapy's Orthopedic Residency program is a 13-month program, beginning in the Fall of each year. Residents will evaluate and treat patients up to 36 hours per week and complete coursework and professional development at least eight hours per week. Our program allows residents to practice and learn in a hospital-based community health system with exposure to a variety of conditions, with multi-disciplinary teamwork and shadowing. As hospital employees, residents will have access to employee benefits and a competitive resident salary.

We are planning to accept two residents for the 2022-2023 cohort. To be considered for this cohort, an application must be completed on both the Luminis Health careers website and through RF-PTCAS. If you are considering a staff PT position only a Luminis Health application is needed!
