Integrated Clinical Experience (ICE) Planned Learning Experience (PLEX)

Evidence Based Practice Week 1 Required

Objectives	Description of Learning Experience	Resources and Time to Complete
Part 1: In Clinic 1. Apply ICF model to a patient case 2. Formulate pertinent background questions to a patient case 3. Demonstrate ability to identify relevant sources and search words for gathering information **Part 2: In EBP class after week 1 of ICE I** 1. Search the literature to acquire articles that answer background questions	**Part 1: In Clinic** 1. As a group, students will complete the ICF template for a patient case who has a diagnosis/health condition that the team would like to learn more about. 2. Each member of the team will develop a relevant background question related to the patient case 3. With CI, team will discuss each question, how to access sources for acquiring the desired information/evidence and create appropriate search words (use PLEX 62 worksheet on Canvas) 4. Team and CI will discuss strategies and barriers for gathering background information in a clinical environment. **Part 2: EBP Class -** Information obtained for this PLEX will be used in EBP Class	**Resources:** 1. Related content from EBP course, specifically formulating background questions 2. Online databases, resource at clinic site **Total time to complete: 1 hour** 1. Detailed ICF completion = 15 min 2. Formulation of individual background question = 5 min 3. Selection of one question for further discussion and literature search = 20 min 4. Completion of PLEX 62 worksheet and discussion = 20 min
