Integrated Clinical Experience (ICE) Planned Learning Experience (PLEX)

Gait Analysis

Objectives	Description of Learning Experience	Resources and Time to Complete
1. Apply principles of Movement Science to the clinical setting 2. Practice gait analysis with a patient/child with gait deviations 3. Hypothesize potential causes of gait deviations	1. Select a patient/child who presents with or identifies gait difficulties 2. Complete gait analysis using systematic framework introduced in Movement Science. 3. Discuss findings with team and CI and generate hypotheses for causes of gait deviations.	**Resources:** 1. Review framework for functional movement/gait observation from Movement Science 2. Rancho Los Amigos Gait Analysis Text **Time to Complete: 1 hour** - Gait Analysis: 30 min - Discuss findings and hypotheses with team: 15 min - Present summary to CI: 15 min
