**Brief Description of the Planned Learning Experience:**

Students will determine appropriate discharge plan for patient and appropriate interdisciplinary team member.

Objectives	Description of Actual Learning Experience	Anticipated time to complete	Recommended Preparation or Readings
1. Students will understand the different discharge destinations along the continuum of care. 2. Students will begin to understand the factors that are involved in discharge planning from an inpatient setting. 3. Students will use professional language and communicate respectfully with interdisciplinary team regarding discharge recommendations.	1. Students will identify possible discharge destinations for patient on caseload. 2. CI will provide feedback and engage in discussion with team as to factors involved in making discharge recommendations. 3. Student(s) will communicate recommendation with appropriate interdisciplinary team member (i.e. social worker, case manager, doctor, etc.)	Discussion within team and between team and CI = 15 minutes Communication to interdisciplinary team = 5 minutes Total time = 20 minutes	1. Information from Professional Development I regarding continuum of care 2. Facility specific information regarding discharge planning
