Integrated Clinical Education – Planned Learning Experience (PLEX)

Plex #: 42	Plex Title: Discharge planning in the inpatient setting	Date created: 10/23/2014

ICE Week/Number

- ☐ ICE I- Week I
- ☑ ICE I- Week 2
- ☑ ICE II

Continuum of Care

- ☑ IP Acute/ICU
- ☑ IP Rehab
- ☐ Outpatient
- ☐ School
- ☐ Not Setting Specific

Patient Management Component

- ☐ Exam/Eval
- ☑ Dx/Prognosis
- ☑ Plan of Care
- ☐ Intervention
- ☐ Outcomes

Curricular Thread

- ☑ Quality Improvement and Safety
- ☑ Patient Centered Care
- ☐ Movement for Participation
- ☑ Teamwork and Collaboration
- ☑ Clinical Reasoning and Evidence Based Practice

Brief Description of the Planned Learning Experience:

Students will participate in discharge planning for patient in the inpateint setting, including communication with appropriate team members and patient, and documentation of discharge recommendation.

Objectives	Description of Actual Learning Experience	Anticipated time to complete	Recommended Preparation or Readings
1. Students will recognize the factors that influence discharge planning in the inpatient setting. 2. Students will use apporpriate language and professional behaviors when communicating discharge recommendations to team. 3. Students will understand the importance of clear documentation in justifying discharge recommendation.	1. Students will work as a team or individually to identify factors involved in discharge planning for patient and will decide on discharge recommendation. 2. Students and CI will discuss factors and recommendations. CI wil provide feedback and modify recommendation as appropriate. 3. Students will identify appropriate team member to discuss discharge recommendation with and initiate coversation. 4. If able, students will communicate discharge plan with patient as well. 5. CI and students will discuss how to clearly document discharge recommendation.	Identifying discharge recommendation= 10 minutes Discussion with CI = 10 minutes Discussion with team member(s) = 5 minutes Discussion regarding documentation = 10 minutes Total time (outside of patient care)= 30-40 minutes	Setting specific information related to discharge planning Information from track courses, Health Care Delivery re: discharge planning and continuum of care (ICE II)
