### **Hybrid Faculty Development**

My involvement with Evidence in Motion brought many opportunities within program design, curricula development, course design and execution. My responsibilities as a faculty experience team member and program director often included collaborating with other program directors, faculty, and stakeholders to assure accreditation standards were met and the courses optimized learning. I also worked closely with instructional designers in transferring courses from one learning management system (Moodle) to another (Canvas), in addition to creating courses within Canvas to optimize learning and the learner experience.

#### High Level Design: Program Specific

EIM Orthopaedic Residency Program 2022

- Created HLD for 10 month, 12 month, 18 month curriculum

EIM Manual Therapy Certification Program 2022

- Created HLD for 12 month, 18 month curriculum
- Updated curriculum to address customer requests/needs

EIM Orthopaedic Certification Program 2022

- Created HLD for 12 month curriculum

#### High Level Design: Course Specific

EIM Virtual Rounds May 2012 - May 2023

- Course creation, development, execution, and updates for both orthopaedic residency and manual therapy certification learners in order to optimize clinical reasoning learning.
- Created synchronous and asynchronous lectures, developed learning activities and acted as lead faculty within these courses.

EIM Effortless Spinal Manipulation Weekend Intensive July 2021 – May 2023

- Course creation, development, execution, and updates for all post professional learning interested in learning advanced spinal manual therapy techniques.
- Created synchronous and asynchronous lectures, developed learning activities, and acted as lead faculty within these courses.
- Collaboration with other faculty to create learning modules for this course.

Principles of Manual Therapy 1 and 2 April 2020 - May 2023

- Collaborated with faculty for course creation, development, and execution of this course.
- Created synchronous and asynchronous lectures, developed learning activities, and acted as lead faculty within these courses.

#### Post-Surgical Management and Rehabilitation May 2022

- Collaborated with faculty for course creation, development, and execution of this course.
- Assisted faculty in creation of synchronous and asynchronous lectures, developed learning activities.
- Assured course aligned with program goals, accreditation requirements and optimized learning for the orthopaedic residents.

#### Essentials of Musculoskeletal Imaging January 2022

- Collaborated with faculty for course creation, development, and execution of this course.
- Assisted faculty in creation of synchronous and asynchronous lectures, developed learning activities.
- Assured course aligned with program goals, accreditation requirements and optimized learning for the orthopaedic residents.

#### Management Course April 2020- April 2021 (acted as interim course director)

- Collaborated with stakeholders on HLD for all four management courses: upper extremity, lower extremity, cervico-thoracic spine, lumbo-pelvic.

#### High Level Design: Lecture/Module Specific

##### Clinical Reasoning: The What and the Why Module 1 April 2020-May 2023

- Created asynchronous module including lecture, readings, and learning activities.
- Assured module aligned with HLD for the respective course (Virtual Rounds) and program.

##### Clinical Reasoning: The Where and the How Module 2 April 2021-May 2023

- Created asynchronous module including lecture, readings, and learning activities.
- Assured module aligned with HLD for the respective course (Virtual Rounds) and program.

##### Clinical Reasoning: The Who and the Where Module 3 April 2021-May 2023

- Created asynchronous module including lecture, readings, and learning activities.

- Assured module aligned with HLD for the respective course (Virtual Rounds) and program.

#### Clinical Reasoning: The How and the Why Module 4 April 2021-May 2023

- Created asynchronous module including lecture, readings, and learning activities.
- Assured module aligned with HLD for the respective course (Virtual Rounds) and program.

#### Subjective Examination: Module 1 May 2020-May 2023

- Created asynchronous module including lecture, readings, and learning activities.
- Assured module aligned with HLD for the respective course (Virtual Rounds) and program.

#### Objective Examination: Module 2 May 2020-May 2023

- Created asynchronous module including lecture, readings, and learning activities.
- Assured module aligned with HLD for the respective course (Virtual Rounds) and program.

#### Utilization and Reasoning: Module 3 May 2020-May 2023

- Created asynchronous module including lecture, readings, and learning activities.
- Assured module aligned with HLD for the respective course (Virtual Rounds) and program.

#### Clinical Reasoning SCRIPT Tool Part 1 and Part 2 May 2020-May 2023

- Created asynchronous module including lecture, readings, and learning activities.
- Assured module aligned with HLD for the respective course (Virtual Rounds) and program.

#### Belonging is the key ingredient for learning and growth! May 2023

- Created asynchronous module including lecture, readings, and learning activities.
- Assured module aligned with HLD for the respective course (Mentoring) and program.

#### Professionalism - Expertise March 2023

- Created asynchronous module including lecture, readings, and learning activities.
- Assured module aligned with HLD for the respective course (Professionalism) and program.

#### The Mentoring Relationship May 2023

- Created asynchronous module including lecture, readings, and learning activities.
- Assured module aligned with HLD for the respective course (Mentoring) and program.

#### Cervical Spine Risk Assessment Part 1 and Part 2 July 2021- May 2023

- Created asynchronous module including lecture, readings, and learning activities.
- Assured module aligned with HLD for the respective course (Effortless Spinal Manipulation) and program.

#### Tracking Down the Evidence: Module 2 May 2018 – May 2023

- Created asynchronous module including lecture, readings, and learning activities.
- Assured module aligned with HLD for the respective course (EBP) and program.

#### **Scholarly Agenda**

My scholarly efforts historically have centered around low back pain. I am most interested in professional education curricula development, high level course design and how clinical reasoning education impact learner's self-perception on their clinical reasoning over time.
