Topics and Trends in Digital Health

📅 September 16, 2024
12:00-1:00pm MT

📍 AHSB Room 2200
Zoom

✉ RSVP [RSVP Here]

After participating in this session, attendees will be able to:

- Discuss current and emerging digital health technologies and their application to health care research and practice;

- Evaluate benefits and challenges involved in using digital health solutions;

- Describe upcoming related topics in this seminar series.

From EHRs to AI and across a wealth of possibilities in between, the impact of digital health technologies (DHTs) is felt throughout health care research and practice every day. This presentation will give an overview of current and emerging solutions, address common challenges and factors to consider when choosing and using DHTs, and will introduce digital health topics being presented in a seminar series over the next few months.
