ACCORDS Seminar Series

Beyond Numbers: Producing Competitive Proposals and Compelling Publications using Mixed Methods in Health Outcomes Research

Lisa McLeod, MD
Director, ACCORDS Research in Outcomes for Children's Surgery Center
Assistant Professor and Attending Physician in Pediatric Hospital Medicine, Children’s Hospital of Colorado, University of Colorado School of Medicine
Associate Fellowship Director, Children’s Hospital Colorado Section of Hospital Medicine Academic Hospitalist Fellowship Program

"Using explanatory sequential mixed methods to determine organizational factors associated with hospital performance in surgical site infection prevention in children"

This second talk is designed to provide an example of a successful study using explanatory sequential mixed methods design to give context to the introductory seminar in October.
