

# ACCORDS

Adult & Child Consortium for Health  
Outcomes Research & Delivery Science

## Where Pragmatic Researchers Thrive

Supported by both the University of Colorado School of Medicine and Children's Hospital Colorado, ACCORDS conducts pragmatic research in real world settings to improve health care and outcomes, by providing a:

- **Collaborative, Multi-Disciplinary Environment**

Investigators from many different disciplines across campus work together to focus on T3-T4 translational or health services research that is directly relevant to guiding healthcare. ACCORDS provides nine ongoing WIP groups with junior research faculty.

- **Centralized Resource for T3-T4 Research**

ACCORDS is a one-stop shop designed to support faculty with new T3-T4 project development, grant proposals, and consultations on various research methods and content areas.

**ACCORDS is organized into strong methodological cores and programs, led by national experts.**

CORES:

- Qualitative & Mixed Methods (*largest in the U.S.*)
- Biostatistics & Analysis
- Economic Analysis
- Mobile Health & Informatics
- Practice-Based Research Network (*with Family Medicine*)

PROGRAMS:

- Dissemination & Implementation (D&I) Science
- Colorado Program for Patient-Centered Decisions
- Community Engagement & Outreach (*with CCTSI*)
- Data Science
- Research Training & Mentorship
- Education

## On average each year, ACCORDS:

Helps  
**65 research investigators**  
submit over  
**100 grant proposals**

Has a  
**35% success rate**  
for federally  
awarded grants

Supports over  
**50 junior faculty members**  
with career  
development awards

Provides over  
**350 research consultations**  
across 25 different  
campus departments/  
divisions
