

Sustainability, Value, and Cost:

Developing Enduring Health Care Interventions

Doug Luke, PhD

Professor of Public Health
Center for Public Health Systems Science
Washington University in St. Louis

If You Build It, Will It Stick Around? Lessons Learned While Developing New Measures of Sustainability in Public Health and Clinical Settings.

Learning Objectives:

- Understanding the difference between sustainability and sustainment;
- How to build measurement tools that are reliable, easy to use, and can be used as research or evaluation instruments;
- Opportunities for tool improvement; shortening existing instruments and adapting them for diverse audiences;
- Seeing how community public health programs have benefited from assessing their program sustainability and using that information in their strategic planning activities.

December 14

12:00-1:00 PM MT
