Speech-Language Pathology Traineeship
2021-22

JFK Partners, Colorado’s University Center of Excellence in Developmental Disabilities Education, Research and Service (UCEDD) and Leadership Education in Neurodevelopmental Disabilities (LEND) Program is offering a Speech-Language Pathology Traineeship to begin July, 2021.

The training emphasizes an interdisciplinary approach to research, assessment, intervention, family support, service coordination, and community integration to meet the needs of persons with developmental disabilities. Development of disciplinary and interdisciplinary expertise, leadership and consultation skills and research as well as clinical growth are the goals of the training program.

The Speech-Language Pathology trainee participates in interdisciplinary evaluations, interventions and consultation with a wide range of persons with developmental disabilities with an emphasis on working with individuals with Autism Spectrum Disorder. These clinical duties are conducted in a hospital outpatient clinical setting (Developmental Pediatrics at Children’s Colorado Hospital) and also in early intervention (ENRICH at University of Colorado). The trainee also attends courses offered by JFK Partners and is expected to compete a scholarly project in developmental disabilities.

Eligibility:
- Applicants must be pursuing a Certificate of Clinical Competence (CCC-SLP) in Speech-Language Pathology.
- Candidates who have already achieved their CCC-SLP are not qualified to apply.
- Applicants must have received the required graduate degree.
- Candidates who have a strong interest in Autism Spectrum Disorder and/or early intervention are encouraged to apply.
- Candidates must also have a state-issued driver’s license, car insurance and reliable car transportation to complete some clinical early intervention duties.
- Only candidates with US citizenship can be considered.

JFK Partners is committed to the recruitment and retention of diverse faculty, staff and trainees to enrich the training environment and better prepare professionals and advocates to promote health equity, wellness, and reduced disparities. We have had challenges recruiting trainees that match the racial, ethnic, and cultural diversity of Colorado. It is a priority to JFK Partners to increase representation of the workforce so it reflects the community we serve. Bilingual Spanish-speaking applicants, in addition to those with racial, ethnic and cultural diversity are encouraged to apply.

Program Description: The Speech-Language Pathology trainee typically completes 25% of their time in coursework and 75% in specialized clinical training (assessment, treatment, consultation) for individuals with Developmental Disabilities, with an emphasis on Autism Spectrum Disorder.
Support: A stipend for this full-time, master’s level position is $3,000-3,500/month with health care benefits. Mileage reimbursement for early intervention services is reimbursed. Tuition for course credit is not provided above the stipend amount.
